ABOUT ME

I am a second-year bachelor Computer Science student interested in web and software development. I have various experience of working on educational projects both as part of my university studies and self-initiatives. I am seeking an internship or entry-level position as a junior software developer. My background includes experience in web development, but I am eager to learn and work with new technologies. I am eager to find a role with the potential for growth as a full-stack or software developer.

SKILLS

HARD SKILLS:

- Python
- C++/C
- React
- SQL (Oracle DB, Maria DB)
- JavaScript
- Linux
- Git
- HTML
- CSS
- API
- Bootstrap

EXPERIENCE WITH PROJECTS:

- **PYTHON FINANCIAL TRACKER BOT,** a team project where I was carrying the team lead role and focusing on backend development. Utilized Telegram API and partially involved in Django integration.
